***didita***. *Atta didita* Walker, 1859: 375 (s.w.) SRI LANKA.

The 'minor worker' is a *Pheidole* species (a specimen of *P. sharpi* according to Donisthorpe, 1932b: 576); the 'major worker' belongs in *Dilobocondyla*. This taxonomic conundrum may be best resolved by regarding the 'major worker' as the lectotype, and excluding the 'minor worker' from further consideration.]
